Thanks, Mike. I'll take a look at it and see. We need to talk today if possible. I really want to get all the information into the draft proposed plan today so that I can spend tomorrow cleaning it up. I need to find out what you found out regarding the risk assessment and I have some cost questions, as well. I have a staff meeting at 9 am, but would like to talk this morning if you're available. Please let me know if 10 am or 10:30 am will work for you. Thanks.
